Московский государственный технический университет им. Н.Э. Баумана Факультет «Информатика и системы управления» Кафедра «Системы обработки информации и управления»

Отчет по лабораторной работе №7 "Javascript" По курсу "Разработка интернет-приложений"

> Выполнил: Студент группы ИУ5-51 Корзин А.А.

Задание и порядок выполнения

Разработать приложение для построения графиков тригонометрических функций на языке Javascript с HTML интерфейсом.

```
Index.js $(function(){
                                                             var from
$('#to'); var func =
$('#func');
                                   var button =
$('#plot button');     var plot =
$('#plot');
         $(onLoad);
function onLoad() {
                  var $button= $('.button')
         };
button.click(function(e) {
                e.preventDefault();
                                                                                           var
from1 = parseFloat(from.val());
var to1 = parseFloat(to.val());
const c = 0.1;
                                                        var points = []
                   for (var x = from1; x <= to1+c; x += c) {</pre>
points.push([x, eval(func.val())])
                   }
                   $.plot(plot, [points], {})
            });
                               var
options = {
series: {
                             lines: { show: true },
points: { show: true }
                 }
         };
          $.plot(placeholder, data, options);
  })
Style.css
#plot{
                      width:
500px;
                       height:
500px;
Index.html
